

## AD22-22MSD    AD22-30MSD

### Features:

- 1.The finger of comfort press to press position and switch to turn operation.
- 2.The function identify.
- 3.The auto connect ground.
- 4.Defend the finger get an electric shock a again.
- 5.Plate chrome metals a head and install a base
- 6.The quakeproof bolt carry son.
- 7.Hard,credibility,as long as 3,000,000 time machine life span.
- 8.As long as 50,000 hours of the service life of the LED indicator.
- 9.Touch some basecassette install

10.The front-panel surface is minimum.

11. No need any tool

Rated insulation voltage	415				
RESISTIVE AMPS RATING	10				
COIL VOLTAGE 50/60HZ	—	380	250	240	125
Full Load Amps	AC-15	2.5	-	3	-
	DC-13	-	0.27	-	0.55

### Product Characteristics

Environment	
Standards compliant	GB 14048.5-2008,IEC 60947-5-1
Ambient temperature	-25℃~+55℃
Vibration resistance	<500HZ,Amplitude of about 1.0mm
Impact resistance	≥10g
Protection class	IP40 can be customized IP65
