

DT 900

- 96mm x 96mm Enclosure front size
- μ P based, digital temperature controller with single output
- Sensor:T/C, Fe-Const, J type or NiCr-Ni, K type
- ON-OFF control form
- Adjustable Hysteresis Value
- Adjustable Upper Limit for SET Value
- Displays SET and PROCESS values
- Cold-junction compensation for T/C
- Excellent linearity with $^{\circ}\text{C}/\text{mV}$ look-up table
- High accuracy
- EEPROM memory to store settings
- Optional SSR output
- Easy connection with plug-in connectors
