

AT 961

- 96mm x 96mm Enclosure front size
- μ P based, single output digital temperature controller with analogue SET
- Sensor:T/C, Fe-Const, J type
- Control form: Proportional or ON-OFF, selectable
- Adjustable Hysteresis Value
- Displays SET and PROCESS values
- Cold-junction compensation for T/C
- Excellent linearity with $^{\circ}\text{C}/\text{mV}$ look-up table
- Detects sensor failure
- High accuracy
- EEPROM memory to store settings
- Easy connection with plug-in connectors
