

CD60 Aluminium electrolytic capacitor (Start Capacitor)

CD60 aluminium electrolytic capacitor widely used to heat pump, water pump, air conditioner, freezers and refrigerators, etc. Apply to single phase AC motor starting , provide higher torque.

Rating capacity	Rating Voltage	Testing voltage	Insulation resistance	Working Temp.	Loss Tangent	Frequency
25-1500UF	110-330VAC	T-T: 1.2time/2S T-C:2000VAC,10S	T-T \geq 3000M. $\Omega\mu$ f	-10 $^{\circ}$ C-55 $^{\circ}$ C	\leq 0.15 20 $^{\circ}$ C (100HZ)	50/60Hz
Durability:	55 $^{\circ}$ C constant temperature, <165V, 1s energizing after 59s off, accumulative total 30000times. 55 $^{\circ}$ C constant temperature, <330V, 1s energizing after 59s off, accumulative total 15000times.
